

Floodplain Biodiversity is highly threatened globally and in the Danube River Basin!

Within the CEEPUS network EcoManAqua – the CEEPUS summer-school “Biodiversity in the Danube Floodplain” coordinated by the Josip-Juraj-Strossmayer-University Osijek will take place at the Nature Park Kopački Rit , Croatia (<https://pp-kopacki-rit.hr>) from 6-11 July, 2020. The 3 ECTS summer-school includes lectures, case-studies & field-sessions to assess and monitor the biodiversity of algae, macrophytes, invertebrates, fishes and birds. Limited number of student slots available, hence register and apply now at the CEEPUS Homepage www.ceepus.info!
